

NG BIOTECH PATENTED TECHNOLOGY

Licensing opportunities for your needs in multiplex and quantitative lateral flow tests

NG-Test[®] Platform

Quantitative
Multiplex

(Exclusive - patented technology)

Conjugate 2
Conjugate 1

Point of care diagnostics platform

Unique Multiplexing capabilities on a single test strip

- Ab and Ag detection on a single test without cross reactions
- Possibility to print up to 10 reagents on a single test strip

Unique Quantitative capabilities

- Wide detection range without dilution
- Association with NG-Test Reader

NG-Test[®] Reader[®]

(Patent pending)

Advantage :

- ☛ Mobility
- ☛ Wireless connectivity
- ☛ Traceability
- ☛ Data management
